EC-0013NCS

LDS A1 2025.05

Features

- Fluorescence Characteristic
- High Adhesion Performance
- Good Thixotropic Property
- High Reliability
- Form-in-Place FIP

EC-0013NCS Ni/C

FIP

EC-0013NCS is a kind of one-component high temperature curing Ni/C electrical conductive adhesive. The material will build up strong adhesion with different substrate after cTw -14.(e)75cBDC /C20 10.6 (w]TJ-0.004 Tc 0.191

Applications

- Consumer Electronics
- Communication Equipment
- Power Supply Controller
- Smart Wearable Product

All technical information stated in this technical data have been confirmed that all the technical parameters are reliable after harsh testing and evaluation of the products. Before you use our products, please carefully evaluate and decide whether the product meets your requirement and you need to take all the risks and responsibilities to use.
